Fire in the Mountains. - We learn from a gentleman who has just returned from a deer hunting expedition in the vicinity of Rowlesburgh, on the Baltimore and Ohio Railroad, that the neighboring mountains are on fire .-Our informant saw, night before last, not less than two thousand acres of solid flame, affording one of the grandest sights he ever beheld. In one place on the top of a peak, the flames stretched up to the height of the loftiest trees, llapping their red and glaring wings in the most terrible manner. A great deal of timber and tan bark that had been hewed and prepared by chest. the mountaineers, is being destroyed and the fire has already catch its way through the mountains a distance of twenty miles. The mountaineers drag the burning leaves away from their cabins and suffer no personal injury family. I have used it in my own case, which beyond an uncomfortable warmth. The first good rain that comes will put the fire out. The fire in the mountains from its frequent occurrence, has ceased to occasion any great degree

Washington County Items .- On Saturday morning last a son of Hon. Thomas M'Keever, of Hopewell tp., was very severely, if not fatally injured, by the running away of a team he was driving at the time in West Mid-

A child of Morgan Thompson, of Morris tp. Greene Co., aged about three years, was burned to death on last Sunday. It was left for but a few moments alone in a room where a fire was burning, when its mother was alarmed by its shrieks, and hastening to its aid found in enveloped in fiames'. It was so severely burned, that it expired in a few hours.

A child of Joseph Thompson, of Morris tp. this county, aged between two and three years, fell into a swill barrel, standing by Mr. Thompson's dwelling house, on Sabbath afternoon last, and was drowned.

On Saturday last, as Alexander M'Clure, Esq., a venerable citizen of this county, and Andrew Borland, a brother-in-law, were diving a one horse buggy down Beau st., (or the Williamsport pike,) east of the Court House, in Washington, the breech band gave way, throwing the buggy upon the heels of the horse, and causing the latter to kick with great violence. Mr. M'Clure received one of the blows on his leg, which was badly broken and bruised. He is a very old gentleman, and it is feared too feeble to recover from the effects of the injury.

Tarrying on the Way .- Yesterday morning a man coming to Market with a load of 50 country produce, took several drinks from a bottle, with which he had provided himself to keep away the keen morning air. The consequence was that drunk come. He had no control over his horses, and they went where they chose. They chose to go up a by road, east of the city, and down a steep bank. The wagon was overturned, the produce spilled, the horses entangled in the barness, and the drunken driver had the hair and skin all torn off the back part of his head. He was found in this excellent condition by a clever German neighbor, who gathered up his scattered truck brought it to town and sold it at a sacrifice.

Virginia Taylor, and Elizabeth Maynard, two nymphs who inhabit the hills about the city, sleeping under ledges of rocks and subsisting upon goods supplied by market thieves, ventured within the corporate limits yesterday, and loosing sight of the civilized surroundings, deported themselves in a manner opposed to the dignity if not the peace of the city. Officer Deafenbaugh took one under each wing and politely solicited the pleasure of escorting them to Ald. Hamilton's office, whence they were removed to jail.

Stealing Butter .- Yesterday morning somebody stole about twenty pounds of butter from Mr. Stewart in the Market House. Cir cumstances seemed to point to one Tom Carr as the guilty party. A warrant was issued for his arrest, and officer Scroggins sought for him on the hills southeast of the city, but Tom, seeing the official and suspecting his design, buried his disreputable person in the woods, and did not come out again.

Robbery. -On Tuesday night some un- MONDAY, OCTOBER 10, 1859! known thief effected an entrance, through the cellar, into the produce store of Harry & Ber. ryhill, Market street, and robbed the cash drawer of about eight dollars. The thieves tried to unlock the safe belonging to the house, but not being acquainted with the peculiarities of the lock, failed in their purpose.

Another Robbery .- On Tuesday night Another Robbery.—On Tuesday night farther, wear longer and make a better finish than any somebody stole into the grocery store of John Lead in use. [FAHNESTOCK'S.]

T. H. LOGAN & CO. and LOGAN LIST & CO., Sole Agents. K. Botsford, on Water street, by hoisting a back window. They were surprised and compelled to retreat before they could execute their predaceous intentions.

Escaped. - On Friday night last, Conn, a fellow who was confined in the Steubenville jail on a charge of counterfeiting, escaped from that institution. At last accounts he had not been recaptured.

Deer Hunting .- Yesterday morning some half a dozen deer, recently killed in the Cheat

concealed in a back yard near Market Square, which had been stolen the night before from the wagon of Herman Anderson.

ALBANY, Nov. 9. -Thurlow Weed claims the election of H. M. Learenworth, the Republican

candidate for Secretary of State, over Jones the Democratic and Utica nominee by 800 majority, and of Robert Denniston, the Republican and Utica candidate for Comptroller, by 25,000 majority.

New York, Nov. 9.—The Tribune figures out the result of the election in the State yester-terday, as follows:—The State officers on the American and Republican ticket are surely elected; this includes Comptroller, Attorney General, State Treasurer, Judge and Clerk of the Court of Apyeals. The other four officers on the State ticket remain in doubt, but the Republicans are probably elected. The new Senate is undoubtedly Republican, probably by an increased majority and the Assembly is also strongly Republican. The County officers elected are three-fourths Republican. New York city elects one Republican Senator, which is a Democratic loss. The Mozart Hall, or ex-Mayor Wood's Democratic nominees, fall very far behind the Tammany candidates.

The vote in New York city is only 54,000, over 46,000 less than registered. Democratic majority in the city for Comptroller is 12,777; for Secretary of State 19,071.

He believes that Slavery is not beneficial either in a political, social or religious sense, and he is unalterably opposed to its extension into free territory. He favors the colonization of the free blacks. It is a powerful article, and will produce a sensation.

Something New, True, Intelligible and Important FOR THE CURE OF THE SICK!

DOCTOR JONES

WOULD say to the diseased of body and mind, who wish to be cured of their maladles, that his stay here is limited to the first of December; hence the necessity of making imbediate application at his office. He solicits patients who have been given up everywhere else as incurable. The reader might here ask, does he really cure such cases or are his statements false? Has he cured such eases in Wheeling? In reply he would say, he has cured and is curing every day just such cases. He has cured and is curing a class of diseases that have baffled the skill of the medical profession in all ages of the world. The reader might here inquire by what means such cures are performed? Not by irritating the delicate membranes of vital organs by druging the stomach, but hy direct application of the positive and negative polarities of Electricity. Again, it might be asked, has not Electricity been employed as a remedial agent for years both in Europe and America, with indifferent results? And, are not numbers now using it in our mir'si with no better results? This is all very true, and when we consider the manner in which it has been applied the results have been more favorable than could have been expected. It has been considered ben ficial in a few cases only and uncertain even in those. There' as been no fixed principles for applying the agent, and therefore no uniform results could be anticipated, but owing to the friendly relation existing between Electricity and health, remarkable cures have sometimes been performed. The current is generally applied through the hands or feet it such power as to convulse the whole nervous and muscular system and frequently produce irreparable injury. Sometimes it is applied by metalle conductors to different parts of the body, which is equal to a process of canterization. Dr. Jones has seen the effect of such treatment for years and the result has generally proved injurious to the patient, conclusively proving that no one should assume the responsibility of administering so po
